## ACADEMIC CENTER Georgia Gwinnett College Lawrenceville, Georgia USA

As the first building of a new college campus, this structure was designed to establish a new benchmark for learning for the University System of Georgia. Portman was challenged to create an environment for “thinking outside the box.” This building’s dynamic form becomes a symbolic expression as the axis of this new campus.

Classrooms, laboratories, and offices form the outer ring, while the information, library, and research areas are contained within the core. An open, three-story ring separates these two elements while providing a variety of formal and informal study areas for interactive learning.

### COMPONENTS

- Offices
- Library
- Classrooms
- Laboratories
- Information and Research Areas

### DATA

Gross Building Area	110,000 sf (10,221 sm)
Building Height	102 ft (31 m)
Stories	3
