

SUNTRUST PLAZA
Atlanta, Georgia USA

The 60-story, 1.4 million square foot (130,064 sm) SunTrust Plaza office tower anchors the north end of the Peachtree Center complex. The plan is square with alternating office projections stepping in and out, thereby creating 36 corner offices per floor.

The site's steep slope presented an opportunity to establish four major entrances into the 62-foot-high lobby, each from a different street level and each offering a distinct sense of arrival. The exterior plazas and green space act as a public sculpture garden for the community to enjoy.
