COLUMBUS STATE UNIVERSITY MASTER PLAN Columbus, GA USA

This is a Master Plan for a 132-acre campus with an enrollment of 6,600 students. The new plan is flexible enough to support a long-term solution to campus development that can be adjusted for changes in teaching/learning methodologies, research emphasis and advances in technology. John Portman & Associates also developed the original Master Plan in 1999.

MASTER PLAN OBJECTIVES

- Meet the demand for future campus development

AccommDATA

Site Area 132 acres (53 hectares)
