

**HARTSFIELD-JACKSON ATLANTA
INTERNATIONAL AIRPORT HOTEL**
Atlanta, Georgia, USA

The design for this hotel embraces its role as a gateway to the city of Atlanta. In a nod to its airport location, the design achieves an implied sense of movement, capturing that magical moment suspended between solid ground and soaring flight.

Made up of simple forms—a semi-circular platform that supports rectilinear buildings and wings that are stacked upon and cantilevered off of each other as if they aspire to join the planes in the sky—the composition results in a special place, filled with unexpected points of interest and exciting views in every direction. Shafts of streaming sunlight, the whisper of moving water, and a green tapestry of plant life humanize the built environment—all mere steps from the terminal.
